Patient Care Kits

Surgical patient positioning and support

Take the pressure off your patients®

Mizuho OSI **Patient Care Kits** provide support, positioning and isolation during a surgical procedure. They provide an unsurpassed system of care and design for practical application. We understand that quality materials, superior design and intimate knowledge of the surgical table translate into better patient outcomes.

Why Buy Your Patient Kits From Mizuho OSI

- We guarantee that your Patient Care Kits are made to the latest table specifications
- We use Supportethane™ and Contourethane™ materials in the GentleTouch® cushion
- We provide ProneView® in your Patient Care Kits
- We offer certified personnel to train your staff on the proper use and care

Patient Care Kit Benefits

- Designed to meet manufacturer's specifications
- Meets all regulatory requirements
- Offerings for prone and supine procedures
- Designed precisely for patient fit and function
- Provides patient isolation options during procedures
- Validated to work with the latest table specifications
- Superior materials and construction
- Available with ProneView or GentleTouch cushions, designed to provide superior prone support and positioning

Trios® and STS

Spinal Surgery Tables

⊕ **Patient Kit Benefits**

- Available with ProneView® Cushions or GentleTouch® to provide superior support and positioning
- ShearGuard® Chest Pillow minimizes shear forces while providing isolation from the device
- Pad Covers are designed to allow the pressure management attributes of the pads to perform while adding a layer of isolation from the device
- Arm Cradles provide for support of the entire length of the arm
